

# Memphis – Be Polite

Police be polite

Wise men are on our side

But I don't know what to do

when the secrets come from you

So be polite

Citizen be polite

The government is on our side

But I don't know what to do

when the secrets come from you

So be polite

I got my guns ready

Couse I'm ready to the fight

The only way I follow it's the one with blood spots

OHH NOO

Listen to the crown

Baby and the economy

Bohemian Rhapsody

OHH NOO

Listen to the crowds

Listen to the crowds

The only light I see is

Pink in the dark

There's no way to scape

There's no way to land

BE POLITE The only light I see is

Pink in the dark

There's no way to scape

There's no way to die

IT'S A MILITIA IT'S A MILITIA IT'S A MILITIA IT'S A MILITIA IT'

Police be polite

Citizens are on our side

But I don't know what to do

when the secrets come from you

**So be polite**

**I dont know were im going, i dont know were to look**

**I dont know whose the stranger, i dont know who is the wolf**

**And i knew i had it coming, all those black suits hiding fire**

**While the people that are running, are they screaming is it violence**

**But I don't know what to do**

**when the secrets come from you**

**So be polite.**
