

Memphis – Green Gasoline

Come to my place
enjoy your time
You had to whisper in the middle of the night
Conversations on a rush
You sick distraction let me talk you about that

Couse nobody knows body nobody nobody
nobody knows body nobody nobody

You wanna burn my lips
Using green gasoline
You wanna take this ship.....in a big big way

Jenny has the answer
But I have the fire
Let's break this prison
From dusk till dawn
From dusk till dawn
I wanna take you tonight baby
I wanna feel you
I wanna be with you
I wanna kiss you
You wanna burn my lips
Using green gasoline
You wanna take this ship.....in a big big way
