

Memphis – Simple Game

I've never seen you away
I've never felt you that strong

I have a lot to try
The girl you called my own

I got you now
I know you don't really know

Couse I'm waiting in this castle
Would you please unlock the door

How many times I have to say
That this is just a game
That this is just
A Simple Game

How many times I have to say
That this is just a game

Softly on the rise
Roughly on the fall

Valentine is not forgiving us
Those flowers are still old

Along between hours
Those days of rock n roll

I would hide inside a casket
And try to called it home

Put on a happy face now
Minstrels are on their way

**And they will laugh of both our feelings
And try to look away**

**Don't you forget
Don't you forget
That this is just a game**

**How many times I have to say
That this is just
A simple game**
