## **MY LIFE JOURNEY LAURA TORRES CARO CHALLENGING TEACHER**

Particularly, I do not really know how and why exactly happened it. Eventually, one day when I was 15 years old and I just started facing problems, I had my first traffic accident with a motorbike.

Even when things were better, life changes in a second again. Consequently, I had my second accident with a motorbike next year. All in all, I had the most terrible accident of all in 2006 where I had to rethink and rediscover in order to bring my life back.

Thanks to my enthusiasm, challenge and willpower to improve myself during the accidents, I found out what I wanted to study after high school. In fact, I have always wanted to improve myself every day, learning from others or my own mistakes.

**Pursue your dream and make it come true!**

### **About the BOOK**

Learning based on projects through experimentation in real classrooms is essential. The idea is to renew the methodology of foreign language teaching in the classroom, using a more active and motivating role that involve pupils in their own learning and enable them to resolve situations which they have to face in their real lives.

Everybody through COACHING and the achievement of the CHALLENGES and GAMES, are enabled to achieve their full physical, intellectual, social & spiritual potential as responsible individual, citizens and members of their communities.

In fact, you have to go through almost all the challenges throughout the project in order to be successful and you will earn a BADGE that you will show at the end to be able to get THE AWARD in celebration of the success achieved.

The project promotes real thoughts in young people to bring up their best improvement, helping them think the way they can do things differently. And it facilitates the introduction of a variety of learning opportunities in a flexible way.
