

Memphis – Baby All You Need Is To Rock

When the days were so long as we could remember
We couldn't put any justice in your hands
And the makeup nights that make me a natural pretender
Watching you dancing in the sand
Are you ok were the first things that I said to you
Looking straightly into your eyes
And you started to cry
And I said

Baby all you need is to rock
Baby all you need is to rock
All you need is to rock
10 years has just happened
since the day I said are you ok
And every day
We play the same game

Come together in the final dream
Just to wake up at time with me
Come together in the final dream
Just to love us as we always did
Come together in the final dream
Just to wake up at time with me
Come together in the final dream
Just to love us as we always did

And every day
We play the same game
And then we laugh and cry
Its the same
But i knew that she was ok
when she told me yesterday
Baby all you need is to rock
Baby all you need is to rock
Is to rock X2

All you need is to rock
All you need is to rock
Baby all you need is to rock
Baby all you need is to rock
All you need is to rock
